On November 13, 2018, AMSI Voices held its fourth annual conference “Making My Decisions. Owning My Outcomes”. This conference included all our seniors from AMSI schools and had a full day event where our alumni came to talk about their experiences.

The three panel discussions that took place aimed at giving the students a better understanding of the next phase of their lives. The panel topics were: Courageous Choices, From plan A to Passion, and Lessons Leant.

The conference was a successful learning experience for both our alumni, who were challenged by students’ questions, and our seniors, who were inspired and motivated by the stories and advice shared.
