In collaboration with leading architectural and engineering design houses, and through strategic alliances with multi-national consultants and suppliers, AMSI's turnkey school solution stands as a complete and comprehensive package for establishing and managing a K-12 school.

This model includes:

- Feasibility Study to confirm the sustainability of the proposed project.
- Architectural drawings and designs tailored to suit the individuality of the investor and the heritage of the region.
- Supervision of contractors and constructional works.
- Operations and Commissioning: Launching of all pre-operational activities, including staff recruitment and training, procurement of assets, furnishing and equipping, installation of systems, advertising campaign, licensing, insurance, academic and administrative preparation.
- School opening and ongoing management by AMSI.
