

Mr. Adonis Nasr has worked within the K-12 education sector for over 15 years and is the founder of AMSI. His career in education spans 7 years of classroom teaching and 10 years of supervision and senior management as Vice President of Al Mawakeb. As an administrator, he has held the positions of Principal, Superintendent and Business Director. In 1998, he moved on to leading school building and master planning projects, where he established the second branch of Al Mawakeb, supervising the project from initial conceptualization through building completion and start of operations. In 2006, he established AMSI under Board of Director mandate as Chief Executive Officer. Under his supervision, AMSI launched another school in Dubai in 2008, the International School of Arts and Sciences (ISAS), and the company quickly became a sought-after regional education consultant and solutions provider by investors, academicians and education ministries in the UAE and in the region.

Throughout his education career, Mr. Nasr spearheaded the development of a number of innovative ICT projects that have received regional and international recognition from educational authorities and leaders in the IT industry, including INTEL. His passion and strategic vision have driven the successful integration of the latest technologies into the mainstream educational processes, as well as the development of new systems, approaches and business solutions that streamline and improve academic and administrative operations on a school-wide level. Mr. Nasr's success in enhancing the learning process across AMSI's schools, expanding parental involvement, increasing work efficiency and significantly lowering operational costs, has been documented in numerous newspaper and magazine articles in addition to five international television releases.

Prior to joining the school industry, Mr. Nasr worked for 5 years as a resident engineer and Technical Manager at Electrocom in Dubai. He is a graduate of the Czech Institute of Technology, holding an M.S. Degree in Mechanical Engineering, specializing in heating, ventilation and nuclear energy sources. Mr. Nasr is an entrepreneur with stakes in several successful companies within the real estate, manufacturing, IT, restaurants, insurance, and logistics industries, and is also a member of the Board of Trustees of the Arab Forum for Environment and Development (AFED).
