

Issue 2013 January

In my address this time, I opted not to speak about this school service or that... I didn't want my letters to become service oriented, and thereupon lose touch with the parent within me. Over the last 35 years of my presence on around or within the system of Al Mawakeb and eventually the International School of Arts and Sciences (ISAS), I have attended 33 graduation ceremonies... from my own graduation back in 1981, to attendee as an invite, to sound system manager, to project manager to speaker representing the

Board of Directors of AMSI schools... I have had the privilege to see several constants...

Graphene...

The Miraculous Material

Never in science did a newly discovered material gain a wide interest from the community like graphene. It is only one atom thick, and is about to change technology...

Campus Key

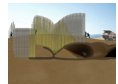

What if the system allowed you to track all your school transactions? What if the system allowed you to control your child's expenditure at school. What if you don't have to wait in queues anymore...

## الدكتور شارل العشي عربي يستكشف الفضاء

شارل العشي هو مدير مختبر الدفع النفاث التابع لوكالة الفضاء الأميركية ناسا، عالم عربي لبناني يقود عمليات إستكشاف الفضاء الروبوتي للنظام الشمسي. الذي يعني إرسال مركبات روبوتية إما الى مدارات حول الكواكب، أو للهبوط على سطح الكواكب.

## الطائرات الهجينة قريباً في الأجواء!!!

إجمع قدرة الطائرة على الطيران السريع، مع  
قدرة الطوافة على الهبوط والإقلاع من أي مكان،  
فتحصل على طائرة من نوع جديد. هذا ما أراده  
سيمون سكوت مؤسس شركة فالكس للطيران في  
بريطانيا لتصنيع طائرات قادرة على الحلول مكان  
الطوافة العادية .
